1905	GN	railroads Great Northern Laclede	Railroad facilities depot	G.N. Depot at Laclede, Idaho, in 1905.	1808
1907	GN	railroads Great Northern McArthur	train wreck	The train wreck on the Great Northern at McArthur, Idaho. Dated March 17, 1907.	116
1908	GN	Colburn railroads Great Northern	Great Northern	Great Northern train near Colburn.	3858
1910	GN	Great Northern Riverside	Railroad locomotives	Great Northern train coming through Riverside in front of mill houses and hotel about 1910.	2941
1910	GN	Great Northern Riverside Laclede	Railroad locomotives	Great Northern train in Riverside area near Laclede in 1910.	2942
1910	GN	logging railroads Great Northern	Railroad cars Steam engines	Great Northern Railroad engine with long line of cars loaded with logs in 1910.	2625
1910	GN	logging railroads Great Northern Forest Siding	Engine #29	Great Northern Engine #29, a 2-6-0 slide valve engine, with train of logs at Forest Siding. 1910 Identical to 11.1307 Magazine: Salesmen's Log July 5, 1922: Feeding a present day sawmill is no mere child's play. This photograph shows a trainload of logs being transported over the private logging railroad of the Humbird Lumber Company. The Company operates 25 miles of private logging railroad and owns six steam locomotives and over 100 flat cars. A large round house and machine shop is maintained at Sandpoint to care for this equipment.	3211
1910	GN	railroads logging Great Northern Forest Siding	Engine #29	Great Northern Engine #29, a 2-6-0 slide valve engine, with train of logs at Forest Siding. 1910 Identical to 11.829 Magazine: Salesmen's Log July 5, 1922: Feeding a present day sawmill is no mere child's play. This photograph shows a trainload of logs being transported over the private logging railroad of the Humbird Lumber Company. The Company operates 25 miles of private logging railroad and owns six steam locomotives and over 100 flat cars. A large round house and machine shop is maintained at Sandpoint to care for this equipment.	3299
1911	GN	Laclede railroads Great Northern	depot	Laclede Great Northern Railroad depot in 1911. Post card	3646
1911	GN	railroads Great Northern Thama		Engine #1012 Great Northern Railroad wrecked at Thama (four miles east of Priest River) January 13, 1911 (see Northern Idaho News January 17, 1911). #1012 was double headed with #1047 which stayed on the rails. Engineer and fireman died in the crash. Engine recovered in March 1911 (see Northern Idaho News March 1911).	6910
1911	GN	railroads Great Northern Thama Laclede	Railroad accidents	Thama Curves train wreck, downstream from LaClede, on March 31, 1911 See also 49.0032 for better photo.	2556
1912	GN	railroads Great Northern	Engine #726	Great Northern Engine #726 on Post card mailed in Kalispell. Postmark is 1912.	6917
1912	GN	railroads Great Northern Kalispel	engine #726	Great Northern engine #726, 4-6-0. Postcard postmarked Kalispel, MT Dec 22, 1912	146
1912	GN	railroads Great Northern Wrencoe	trestle	This Great Northern trestle was destroyed by a landslip a mile and a half east of Wrencoe on March 19, 1912. The trestle was built to cut across an arm of the river to straighten an existing main line curve. Fill was in the process of being dumped off the trestle to complete the work when the meadow adjacent slid into the river, buckling the trestle which then backed up the river and exploded into the air. Two bridge carpenters were killed. View looking south or downstream. Pend D'Oreille Review March 22, 1912. See 11.1262 See 11.0903 for modern view. .	3255
1913	GN	people railroads Priest River Peterson Collection Great Northern	People Railroad stations Fourth of July celebrations	Group of people at the Priest River rail road depot on the Fourth of July in 1913.	10514
1913	GN	railroads Priest River Peterson Collection Great Northern	Steam engines	Large locomotive #1200 in Priest River, Idaho, in 1913.	10448
1913	GN	railroads Priest River Peterson Collection Great Northern	Railroad stations depot	People gathered at the railroad depot in Priest River in 1913.	10465
1914	GN	railroads wrecks Laclede Great Northern Thama		Large cardboard photograph. Wreck of Great Northern No. 44 a mile west of Laclede in March 1914. Alma Salesky and Ethel Ellersick in foreground. Also identified as Thama. See also 11.755	76
1920	GN	railroads Great Northern	engine #2505 Mountain Type	Great Northern engine #2505 Mountain Type 4-8-2 heading up the Oriental Limited traveling with "William Crooks" on display in 1920. See 11.1255. Location unknown.	3246
1920	GN	railroads Great Northern	American Type Wm. Crooks	The Great Northern Oriental Limited is behind the Wm. Crooks, an American 4-4-0. They were traveling together in 1920. The Wm. Crooks was St. Paul & Pacific Railroad engine #1. The St. Paul and Pacific Railroad was a predecessor line to the Northern Pacific. See 11.1254. Location unknown.	3248
1930	GN	children winter - snow scenes Sand Creek railroads Great Northern bridges	Children praying Winter sports	Winter scene of young people with skis taken at the G.N.N.P. transfer track on Sand Creek in the early 1930's.	5121

1930	GN	railroads Great Northern Sandpoint	beanery Great Northern Lunch	Group of six unidentified men standing in front of a wooden clapboard building. Photo marked "Great Northern Beanery Train Crew". 1930 See 11.1298 for similar photo, but not identical. Photo taken at the Great Northern Lunch, also called the Beanery. Owners of the Lunch Room were Wm. McIntyre and Percy Bartlett. The Beanery was located in the Great Northern Depot area on the west end of Main Street in Sandpoint.	127
1930	GN	railroads Great Northern Sandpoint	beanery Great Northern Lunch	Group of six unidentified men standing in front of a wooden clapboard building. Photo marked "Great Northern Beanery Train Crew". 1930 See 11.604 for similar photo, but not identical. Photo taken at the Great Northern Lunch Room, also called the Beanery. Owners of the Lunch Room were Wm. McIntyre and Percy Bartlett. The Beanery was located in the Great Northern Depot area on the west end of Main Street in Sandpoint.	3291
1930	GN	railroads Great Northern Sandpoint	Eating & drinking facilities beanery	Train crew in front of GN Beanery which was owned and operated by Percy Bartlett.	1379
1935	GN	railroads Great Northern Hillyard	engine #1724	Great Northern engine #1724, a 4-6-2 Pacific, taken at Hillyard in 1935. It was used on coast passenger trains run in the 1920's and 30's.	170
1938	GN	pole & cedar products Great Northern Thama	logging	Decking poles on the Great Northern Railroad in Thama in 1938. Pictures indicates could be Internationa Pole or B.J. Carney.	4776
1938	GN	pole & cedar products Great Northern Thama	logging	Load of poles from International Pole in 1938 on the Great Northern Rail Road.	4777
1938	GN	pole & cedar products Great Northern Thama	logging	Load of poles on the Great Northern Rail Road at Thama. Henry Bergdorf, Jr. loaded these with horse jammer in 1938.	4779
1938	GN	pole & cedar products Great Northern Thama	logging	Loading poles at B.J. Carney on the Great Northern Rail Road at Thama in 1938.	4780
1938	GN	pole & cedar products Thama Great Northern	logging	Horse-drawn jammer loading poles on the Great Northern at Thama in 1938.	4782
1944	GN	railroads Great Northern	turntable accident Porthill	Great Northern baggage-coach car on hillside after apparently rolling off the turntable at Porthill, ID, 1944. An empty tender also has its rear wheels off the track.	9434
1944	GN	railroads Great Northern	combination baggage-coach turntable accident	Workers preparing to rescue the Great Northern combination baggage-coach that was rolled off the Porthill turntable. See also 74.0020.	9436
1945	GN	railroads Great Northern	Great Northern #219 Porthill, ID	Great Northern locomotive #219 at Porthill, ID, 1945.	9430
1945	GN	railroads Great Northern Whitefish, MT	Engine #2511	Vanishing Vista's photo of Great Northern Oriental Limited in June, 1945 at Whitefish, MT.	3283
1948	GN	flood Bonners Ferry railroads Great Northern Kettle Valey	Flood 1948 wye	Flood of May 1948. Kettle Valley wye in Bonners Ferry. Photo also states Great Northern. Note railroad diamond (crossing) at top of photo.	842
1950	GN	women Great Northern Wrencoe	Women Railroad tracks	Mary Jane Searfus on railroad tracks in Wrencoe in the 1950's.	5378
1950	GN	women Great Northern Wrencoe	Women Railroad tracks	Alice Searfus on the Great Northern track near Wrencoe in the 1950's.	5379
1960	GN	bridges Great Northern Sandpoint	Bridge construction	Bridge material for GNR--US 95 Hwy Project--Deubel Property.	14219
1961	GN	railroads Great Northern Bonners Ferry		Great Northern track along Kootenai River east of Bonners Ferry near milepost 117.	156
1961	GN	railroads Great Northern Bonners Ferry		Great Northern track along Kootenai River east of Bonners Ferry.	157
1961	GN	railroads Great Northern Bonners Ferry		Great Northern track along Kootenai River east of Bonners Ferry.	158
2002	GN	Great Northern Wrencoe	Railroad tracks	Wrencoe curve where G.N. trestle slid into Pend Oreille River, taken in 2002. Three hundred feet of trestle and two carpenters were lost. No train was on the trestle. Cause was unstable layer of rock shelf.	5377
3/31/1911	GN	Farmin Album railroads Great Northern Thama		Salvage of Great Northern engine from train wreck at Thama. Thama Curves train wreck, downstream from LaCledde, on March 31, 1911 See also R105N019 for negative.	4130
3/22/1922	GN	Farmin Album railroads Great Northern Wrencoe		Site of washout at Wrencoe on Great Northern railroad. March 22, 1922 See 11.1261	4108
4-Apr-51	GN	pole & cedar products Priest River railroads Great Northern	poles for Idaho Power Co. Great Northern Railway	W.R.C. poles on two railroad cars at Priest River prepared for shipping to Idaho Power Co.	6185

21-Mar-53	GN	Albeni Falls Dams and Power Plants Pend Oreille River Great Northern bridges	powerhouse construction GN replacement bridge	Aerial view of Albeni Falls Dam powerhouse under construction.	9587
29-Nov-63	GN	pole & cedar products Sandpoint railroads Great Northern	pole yards Baldy Road Great Northern Railway	Color image of poles loaded on a railroad car, identified as those of Joslyn Corp of Sandpoint. The location appears to be a siding off the Great Northern-Spokane International exchange track near the Great Northern yards at Baldy Road.	6184
1909 (probably)	GN	Communities Wrencoe Pend Oreille River Great Northern	houses store pole yard	Wrencoe, Idaho. Photo includes a number of houses, a pole yard, a grocery store, the Great Northern Railroad and the Pend Oreille River.	5601
1909 or earlier	GN	Priest River Pend Oreille River railroads Great Northern	general view of town Great Northern	1909 postcard view of Priest River from the south side of the Pend Oreille River.	4986
1973 (see notes for 10.1126)	GN	Bonnars Ferry Kootenai River transportation bridges railroads Great Northern Spokane International		See photo 10.1126, which is identical, except for artist's detailing of proposed Bonners Ferry bypass.	3769
about 1972	GN	pole & cedar products Sandpoint railroads Great Northern	Joslyn pole yard Boyer Avenue Great Northern crossover track	Aerial view of Joslyn pole yard, Sandpoint. Boyer Ave is in lower right foreground.	6372
before 1908	GN	railroads Great Northern Priest River Pend Oreille River	track	Great Northern Railway near Priest River. Houses in background are probably in Priest River.	9437
early 1900's	GN	Colburn railroads Great Northern	buildings railroad sidings section house	Colburn from east side of Great Northern tracks. The large dark building on right side of tracks is the section house.	4026
early 1900's	GN	Colburn railroads Great Northern	buildings railroad sidings	Colburn from east side of Great Northern tracks.	4027
early 1900's	GN	Colburn railroads Great Northern	buildings railroad sidings section house	Colburn from east side of Great Northern tracks. The large dark building on right side of tracks is the section house.	4028
early 1950's	GN	pole & cedar products Sandpoint railroads Great Northern	pole yards Boyer Avenue Baldy Road Great Northern Railway	Aerial postcard view of pole yards in vicinity of N. Boyer Ave, Sandpoint, captioned, "Sandpoint, Idaho-Cedar Pole Capitol of the U.S." The Great Northern-Spokane International interchange track is in the right center of the photo.	6183
late 1920's	GN	Dover Pend Oreille River railroads schools Spokane International Great Northern	Spokane International Railroad Great Northern Railroad Dover school	Postcard view southeastward including part of Dover. Tracks of the Spokane International and of the Great Northern are shown. Early SI station is at the end of the street intersecting the highway. Later this station was replaced with a larger double-bay station between the GN and SI. Dover school is at left near the water. Lighter colored SI grade might indicate that this is not too long after construction in 1906.	4234
May, 1948	GN	Bonnars Ferry Kootenai River railroads Great Northern Spokane International flood	flood May 1948 Kootenai River flood	Aerial view of Bonners Ferry flood of May 1948. Great Northern siding track in foreground is suspended over water flowing through its washed out embankment into the area west of town. A Spokane International siding is also in water. In the distance the south end of US 95/US2 bridge over Kootenai River appears to be at river level. View is eastward.	3770
probably 1945	GN	railroads Great Northern	"Dinkey" locomotive/baggage car Porthill	A "Dinkey" locomotive/baggage car with coach at Porthill in 1945.	9435
	GN	Albeni Falls Clark Fork River railroads Great Northern	Rapids Rivers	Rapids at Albeni Falls on the Clark Fork River in Idaho.	2353
	GN	Bonnars Ferry bridges transportation Kootenai River railroads Spokane International Great Northern	Bonnars Ferry highway bypass plan	Artist's conception of new bypass of US 95/US2 at Bonners Ferry. Photo 10.1126a is identical except for slight differences in the artist's detailing of landscaping and of the junction of Main Street and the highway at the south end of the bridge (actual constructed junction is different from both of these images). The SIRR bridge is partially in view. The Great Northern track and yards are also visible.	3768
	GN	bridges Albeni Falls railroads Great Northern	Bridges	Three-Mile Bridge at Albeni Falls.	2667
	GN	bridges railroads Great Northern Albeni Falls	Bridges	Great Northern bridge over Albeni Falls.	1075
	GN	children railroads Great Northern Sandpoint	Students Railroad cars	Students and teachers boarding the Great Northern train in Sandpoint. Ada Phillips is in line in dark coat and back to the camera.	11753
	GN	Dover mills railroads Great Northern	Dover mill	Aerial view of Dover Mill. Great Northern switch lead shown. Circa 1957	6987

Year/Date	Railroad	Search Terms	Subjects	Description	Object ID
	GN	Dover railroads Spokane International Great Northern	Dover station	Dover railroad station with Eudora Blood, Postmistress, standing on the mail crane. This (second) station was located between the SI and the GN about where the walking/bike trail sign in Dover is in 2008.	4287
	GN	Egan Collection railroads Great Northern Sandpoint	station depot water tank	Great Northern station in Sandpoint. Late 1890's H. Egan Collection 7 - photo by H. Egan	3951
	GN	Great Northern	roundhouse	Six-stall Great Northern engine facility. Photo is marked Havre Montana, but that is incorrect based on a site visit. Very early photo since several of the eleven engines in the scene have slide valves. Photo probably taken from water tower. Engines and crews are posed. Electricity serves facility. Engines 1144, 1157, 1147, 1155, unknown, 1162, 704, 706?, 712, 713 and #1 which has window in front of cab across top over boiler with headlight on back of tender. All are 2-8-0 except #1 which is probably a switch engine. Location is at a wye on flat country. Trestle visible in left center background. Town barely visible in background over engine facility. Photo could be looking north based on shadows.	132
	GN	Great Northern Dover	Railroads	Great Northern train coming in to Dover.	2186
	GN	Great Northern men	Railroad facilities	Percy Bartlett sitting on the running board of car at the Great Northern "Beanery" or lunchroom. The Beanery was owned by William McIntyre and Percy Bartlett.	5080
	GN	Great Northern Pack River Forest Service collection	Railroad cars	Great Northern Railroad cars loaded with poles at Pack River.	9025
	GN	Great Northern Priest River	Cities & towns Railroads	Picture description - Priest River, Idaho, on Great Northern Railway, the Gateway to Priest Lake. At this point stage parties are made up for the overland trip to Coolin, on Priest Lake.	2845
	GN	Great Northern railroads bridges Lake Pend Oreille	Bridges Bridges Lakes & ponds Railroad bridges	Great Northern Railroad Bridge coming in to Sandpoint. The long wooden bridge is in the background. This was a paper copy - not a photo.	12782
	GN	Indians Great Northern Bonners Ferry Peterson Collection	Indians of North America Monuments & memorials	Indians gathered in Bonners Ferry to dedicate monument at the Great Northern station.	9425
	GN	Ira Spring logging logging Priest River railroads Great Northern		Holding boom at the mouth of Priest River where it enters the Pend Oreille River. The Great Northern Railroad bridge is in the background. Identified by Bill Whetsler 6/20/1978.	3540
	GN	Laclede railroads Great Northern	water tank	Close up of Laclede with water tank. Post mark is xxx9 so probably around 1909. Post card	3660
	GN	livery railroads Northern Pacific Great Northern Sandpoint	Davis & Turpin	Mysterious photo of business for Davis & Turpin, a livery company in Sandpoint. Cost of transfer between Great Northern and Northern Pacific stations is 25 cents. Photo references roll 16A Negative #29.	4020
	GN	Priest River railroads Great Northern	Cities & towns	Down town in Priest River, Idaho.	2094
	GN	railroads bridges Priest River Great Northern	Railroad bridges	Great Northern Railroad bridge across Priest River..	2101
	GN	railroads Great Northern	conductor	Great Northern conductor picking up train orders.	162
	GN	railroads Great Northern	engine #2038	Great Northern mallet steam engine #2038. It is a 2-8-8-2.	169
	GN	railroads Great Northern	Railroad cabooses Railroad locomotives	Great Northern R.R. engine and caboose - people unidentified.	1077
	GN	railroads Great Northern	Engine #8	Great Northern switch engine #8 in unknown location.	3285
	GN	railroads Great Northern Albeni Falls		Albeni Falls with Great Northern track in background.	167
	GN	railroads Great Northern Albeni Falls	bridge	Great Northern railroad bridge at Albeni Falls.	168
	GN	railroads Great Northern Bellingham, WA	Engine #2	Great Northern engine #2, late 1890's, south of Bellingham, WA. See "Lines West" by Charles R. Wood.	3272
	GN	railroads Great Northern Laclede	depot	Great Northern station at Laclede. Model of car indicates late 1930's? Item under the tarp looks like a traced vehicle.	3289
	GN	railroads Great Northern Laclede	Water towers	Laclede with water tower in front.	1575
	GN	railroads Great Northern Laclede	Railroad facilities depot	Great Northern Depot at laclede, Idaho.	1813
	GN	railroads Great Northern Laclede	Railroad accidents	Great Northern train wreck west of Laclede.	2816
	GN	railroads Great Northern Laclede	Railroad locomotives	Great Northern at the rock cut north of Laclede. Engine is pushing "rock cars" to a loading place.	2943
	GN	railroads Great Northern men	Men Railroad employees Railroad cars	Great Northern Railroad track gang sitting on a hand car.	12775
	GN	railroads Great Northern Moravia	train wreck	Great Northern freight train wreck at Moravia.	166
	GN	railroads Great Northern Peterson Collection	Railroad cars	Great Northern Railroad Caboose No. 0538	12091

Year/Date	Railroad	Search Terms	Subjects	Description	Object ID
	GN	railroads Great Northern Peterson Collection	Railroad accidents	Passenger train with wrecked lumber, possibly Great Norther Rail Road.	12348
	GN	railroads Great Northern Priest River	Louisiana-Pacific	Great Northern chip car at the Louisiana-Pacific mill spur in Priest River. It appears that the car was shoved down the spur too hard, the truck derailed at the end of the spur in the dirt and the car itself continued another half car-length.	164
	GN	railroads Great Northern Priest River	People Railroad facilities	People gathering at the Great Northern Rail Road depot in Priest River.	4011
	GN	railroads Great Northern Sandpoint	engine	Great Northern 2-8-8-2 taken from old depot platform, presumably in Sandpoint.	142
	GN	railroads Great Northern Sandpoint	engine	Engine on track at Great Northern freight yard. Presumably Sandpoint. Same scene as 11.702	144
	GN	railroads Great Northern Sandpoint	engine	Engine on track at Great Northern freight yard, presumably in Sandpoint.	145
	GN	railroads Great Northern Sandpoint	beanery Great Northern Lunch	Photo taken at the Great Northern Lunch Room, also called the Beanery. Owners of the Lunch Room were Wm. McIntyre and Percy Bartlett. The Beanery was located in the Great Northern Depot area on the west end of Main Street in Sandpoint. Percy Bartlett is sitting on the running board in his apron.	3292
	GN	railroads Great Northern Wrenciae	trestle	Wrenciae railroad trestle collapses.	66
	GN	railroads Great Northern Wrenciae		This Great Northern trestle was destroyed by a landslip a mile and a half east of Wrenciae on March 19, 1912. The trestle was built to cut across an arm of the river to straighten an existing main line curve. Fill was in the process of being dumped off the trestle to complete the work when the meadow adjacent slid into the river, buckling the trestle which then backed up the river and exploded into the air. Two bridge carpenters were killed. View looking north or upstream. Note the original mainline on the left, the new mainline under construction as a result of the collapse in the center and the partially collapsed trestle on the right. In 2006 at low river, some of the original pilings are still visible. Pend D'Oreille Review March 22, 1912. See 11.1261 .	3256
	GN	railroads Great Northern Wrenciae		Modern view of Wrenciae curve location of G.N. Railroad trestle that gave way because of quicksand. Pilings visible in center of photo. Fall 2000 BCHS photo. See PDR March 22, 1912. Notice pilings on island. See also 11.1261 for photo taken at time of collapse.	6920
	GN	railroads Laclède Great Northern	depot water tank	Laclède Depot including water tank. Frank Morrison was agent. Copy of photo, probably Chuck Peterson's.	94
	GN	railroads Laclède Great Northern	Water towers Railroad stations depot	Water tower and train station in LaClède, Idaho.	3922
	GN	railroads Spokane International Dover Great Northern	Engine #103	Spokane International Train No. 1 near Dover. GN mainline is to the left. Engine #103. See other photo record.	14177
	GN	Railroads wrecks Laclède Great Northern Thama		Wreck of Great Northern No. 44 a mile west of Dover in March 1914. Alma Salesky and Ethel Eilersick in foreground. Also identified as Thama. Duplicate of 11.71	161
	GN	schools Great Northern	School children	Great Northern School was located one quarter mile north of the Great Northern Depot in Sandpoint. It was a one-room school with grades 1 -8. Those identify are on the left Karl Berg, Otto Turinsky, Jr., and in front of them is Andy Turinsky.	2749
	GN	schools Great Northern	School children	Girls of the Great Northern School in Sandpoint. Rear L-R Dorothy Hudon (Gooby), Simone Roberts, May ?, Freda Stuta, Mary Crowell; Front L-R Pearl Hudon, Helen Turinsky, Alvina Stutz.	2754

1904	NP	railroads bridges Northern Pacific		Northern Pacific train crossing the new concrete pier lake Pend Oreille railroad bridge. Older wooden pile bridge is behind new bridge. New bridge started in 1902. 83 concrete piers left for a year to become firmly set. 85 steel girders in all, 78 are 50 foot, 4 are 75 foot, 2 are 100 foot and the draw span is 200 feet making 4000 feet in all. Draw span moved by 15 hp gasoline motor. Estimated cost is \$1,000,000 2300 tons of steel, four.5 tons of paint and 500 gallons of oil to paint it. New bridge is six feet higher than old bridge due to 1894 flooding. Yards and depot will need road bed raised. Will be longest bridge on NP when pile bridge over Pack River is removed. 1933-1941	NP	railroads Athol Northern Pacific wrecks	train wreck	Northern Pacific train wreck north of Athol, Idaho June 13, 1941. Engine #2239 and tender look like they derailed on a curve and the following boxcars continued on, derailing adjacent to the engine. The men in photo are using a "chain gang" method to pass flats of cherries from a still -upright refrigerator car to a stack adjacent to the track. "Everyone in the area had cherry pie that week." Ross Hall photo. Sandpoint News-Bulletin, June 19, 1941: "Thousands View Train Wreck Near Athol; 2 Killed. Cause of the derailment of the eastbound Northern Pacific cherry special just this side of the Kootenai-Bonner county line east of Athol last Friday morning, which resulted in the death of the engineer and fireman, still remained a mystery this week. Northern Pacific railway officials who have investigated the accident as yet have given no reason for the derailment of a locomotive, tender, coach and nine refrigerator cars on a curve. The wreckage was strewn over a large part of the Northern Pacific's right-of-way and the sand dome from the locomotive was hurled 50 feet from the right-of-way. The locomotive and some of the refrigerator cars were demolished. Farmer Brings Word A farmer living nearby, who hurried one of the brakemen to Athol, brought the first word of the wreck which occurred at 10:38 and resulted in a traffic problem as cars carried thousands of curious persons to the scene for the next three days. It is reported by officers that thousands of cars bearing licenses from many states visited the scene of the wreck and Sunday bought cherries which were sold there. Those who were first to make their way to the wreck, approximately two miles from the highway, encountered "rough going" over the narrow road and across a farmer's ploughed field, but by Sunday evening a "two-lane highway," well packed, easily led motorists to the scene of the wreck. Two Dead The dead were C. F. Reeves, engineer, and C. A. Parks, fireman, both of Spokane. The Friday-the-13th tragedy saw Engineer Reeves at the throttle, or so-called Johnson bar," with his hands gripped to the lever. His body was found in the wreckage 10 feet from the ground as the locomotive lay on its side about 50 feet from the tracks. Parks was hurtled a considerable distance through the air, his body being found 150 feet from the engine. Escaping injury were two brakemen, J. A. McKinnon and Carl Moore, both of Spokane and Walter Tompkins, conductor, who also received no serious injuries. The badly twisted rails were soon replaced by extra gangs of section workers and trains routed over the tracks again Friday evening. The wreck was one of the worst this division has had in many years, said Northern Pacific officials. The cherry special was traveling on passenger schedule a few minutes behind the second section of the eastbound North Coast Limited." My uncle, my older brother and I were among the "thousands of curious persons" who came to the site. I was eight years old at the time. I remember the bumpy, very dusty driving on the makeshift road from Highway 95, and numerous people milling around the wreck. --Alan Robertson, Sandpoint, 12 Mar 2006.	87

	other	railroads Burnt Cabin Railroad Kootenai County	steamshovel logging camp 23	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Early scene at Camp 23. Tents were soon replaced with bunkhouses. .	9005
	other	railroads Burnt Cabin Railroad Kootenai County	steamshovel logging camp 23	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Another early scene at Camp 23. The tender tank on engine no.1 was increased in height to the same level as the fuel tank in one of the early years. This was probably done to provide additional water for longer runs between water stops. It would also have provided additional weight for better traction. (The tender also had powered axles.) Compare the tender tank in this photo to that in CD00010P120. Note also the changed piping from the boiler to the steam chest, which was also changed, in the two photos. Heisler 1 had a superheater installed some time between the dates of the photos, possibly at the time the tender tank was modified. All four locomotives were also fitted with spark arrestors on the smokestacks to reduce the risk of igniting forest fires. After closure of the Burnt Cabin RR in 1942 Heisler 1 was sold to a company in western Washington. It was later sold to Potlatch Forests (PFI) and used to haul logs from the Headquarters and Pierce areas in Idaho to Orofino. Glen Johnson, who had been the engineer on the "1 Spot" for Ohio Match, was sent to western Washington to prepare the locomotive for the move back to Idaho and rode in it as it was "deadheaded" on freight trains across the state. Johnson retired in Spokane after operating the locomotive for PFI for a number of years. The former "1 Spot" is now on display in a park near the Clearwater River Bridge in Lewiston. PFI had numbered it 92. .	9006
	other	railroads Burnt Cabin Railroad Kootenai County logging	flunkie camp 23 caboose	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: He probably worked in the cookhouse most of the time, but may also have been give other jobs as well. The caboose in scene was not the regular Burnt Cabin caboose. The one shown was used for tool storage. It does not appear in most of the Camp 23 photos so probably was not brought there for many of the logging seasons. .	9007
	other	railroads Burnt Cabin Railroad Kootenai County logging	Camp 12 train	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: This may have been the site of a temporary water tank (small building behind, above the locomotive). The men probably are Bill Clark (with rifle) and Clarence Robertson. The women are unknown. .	9008
	other	railroads Burnt Cabin Railroad Kootenai County logging	track repair	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Buckled track probably caused by rail expansion resulting from heat. .	9009
	other	railroads Burnt Cabin Railroad Kootenai County logging	loggers speeder	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: About 18 men posed on a speeder. Maybe they are ready to go out to town, but not all on one speeder! .	9010

	other	railroads Kootenai County Burnt Cabin Railroad logging	Ohio Match Company steamshovel Camp 23	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Steamshovel working on a spur at Camp 23. This spur which apparently ran up the valley of Bottom Creek may have been used to bring logs out of that area. It is not seen in later images of Camp 23.	8968
	other	railroads Kootenai County Burnt Cabin Railroad logging	Ohio Match Company locomotive Heisler	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Company photo of the newly arrived No. 1, 1924. The location is approximately 1½ miles from junction with SIRR in NW1/4, Sec 20, T52N, R3W. The company built an engine shed on the end of this siding. See CD00010P055 In about 1930, John Peterson who farmed nearby, was severely injured when it collapsed while he was dismantling it for the company.	8969
	other	railroads Kootenai County Burnt Cabin Railroad logging	Ohio Match Company Camp 23	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Early scene at Camp 23, the primary camp for railroad operations. Tents were soon replaced with bunkhouses.	8970
	other	railroads Kootenai County Burnt Cabin Railroad logging	Ohio Match Company Camp 23	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Another early scene at Camp 23. The tender tank on engine no.1 was increased in height to the same level as the fuel tank in one of the early years. This was probably done to provide additional water for longer runs between water stops. It would also have provided additional weight for better traction. (The tender also had powered axles.) Compare the tender tank in this photo to that in 120TrainHaydenCr. Note also the changed piping from the boiler to the steam chest, which was also changed, in the two photos. Heisler 1 had a superheater installed some time between the dates of the photos, possibly at the time the tender tank was modified. All four locomotives were also fitted with spark arrestors on the smokestacks to reduce the risk of igniting forest fires. After closure of the Burnt Cabin RR in 1942, Heisler 1 was sold to a company in western Washington. It was later sold to Potlatch Forests (PFI) and used to haul logs from the Headquarters and Pierce areas in Idaho to Orofino. Glen Johnson, who had been the engineer on the "1 Spot" for Ohio Match, was sent to western Washington to prepare the locomotive for the move back to Idaho and rode in it as it was "deadheaded" on freight trains across the state. Johnson retired in Spokane after operating the locomotive for PFI for a number of years. The former "1 Spot" is now on display in a park near the Clearwater River Bridge in Lewiston. PFI had numbered it 92.	8971
	other	railroads Kootenai County Burnt Cabin Railroad logging	Ohio Match Company Camp 23 caboose	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: The camp flunkie. He probably worked in the cookhouse most of the time, but may also have been give other jobs. The caboose in scene was not the regular Burnt Cabin caboose. The one shown was used for tool storage. It does not appear in most of the Camp 23 photos so probably was not brought there for many of the logging seasons.	8972

	SIUP	railroads Burnt Cabin Railroad Spokane International Kootenai County	Ohio Match Company warehouse junction with SIRR	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Ohio Match bought two new Heisler locomotives, one of 50 tons and one of 90 tons. The 50-ton, which was used for much of the initial railroad construction, was numbered "4" when received. Ohio Match changed that to "2" and gave the 90-ton Heisler "1", it being the largest of their four locomotives. The company also acquired a used Climax, which was numbered "3" and a small Shay, "4". The Burnt Cabin RR began at the warehouse where the junction with SIRR was made. The warehouse was managed by a family named Meredith. It provided storage for supplies destined for the company's camps. (Note the apparent locomotive tires on the loading dock). Mrs. Meredith made lunches for the daily log train crew, that were served in a kitchen in the warehouse (inside the near window).	8898
	SIUP	railroads Burnt Cabin Railroad Spokane International Kootenai County	Ohio Match Company steam shovel crew	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Steamshovel, location unknown.	8904
	SIUP	railroads Burnt Cabin Railroad Spokane International Kootenai County	Ohio Match Company new track	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest. It was constructed 1923 and operated until 1942. Using Shay, Climax and Heisler geared locomotives, it hauled white pine and other logs from the North Fork of the Coeur d'Alene River to a junction with the Spokane International Railroad (SIRR) about two miles south of Chilco on Highway 95. PHOTO: Completed track thru a recent cut.	8905
	SIUP	railroads Burnt Cabin Railroad Spokane International Kootenai County	Ohio Match Company construction train	Burnt Cabin Railroad, an Ohio Match Company logging railroad was located north and east of Hayden Lake in the Coeur d'Alene National Forest.
